### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Jose Gutman, Reg. No. 35,171; on October 11, 2005.

The application has been amended as follows:

Cancel claim 4.

The following is an examiner's statement of reasons for allowance: The prior art teaches pinning memory but fails to teach the combination including the limitation of:

(Claims 1, 8, and 16) "...wherein the additional non-pageable pinned kernel memory block has a predetermined size";

(Claims 7 and 22) "...releasing a last added additional memory block if the step of periodically examining determines that there are no memory buffers allocated within the set of last two memory blocks";

(Claim 14) "...releases a last added additional memory block if the step of periodically examining determines that there are no memory buffers allocated within the set of last two memory blocks".

Claims 2, 3, 5, 6, 9-11, 13, 15, 17, 18, 20, and 21 are allowed as being dependent upon, and thus incorporating therein, the allowable subject matter of the respective parent claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
